Hello Jeff,

My apologies for taking longer than anticipated to get this back to you. I have been working in the facilities maintenance arena for over 12 years but only the last 3 weeks with B&L, so still get ing acclimated.

Overall the pavement surface is holding up pret y well. Depending on weather and conditions you could get anywhere from 5-10 more years out of the surface. As you probably know there are some areas that should be repaired, and I have at ached 3 photos indicative of those areas.

I did some rough measurements and came up with a budget estimate to do a 1 inch overlay of \$110,000.00.

Please let me know how else I can be of assistance. Have a great day.
